DESCRIPTION

LEX is a premier law firm in Iceland, staffed by around 40 highly skilled lawyers. We deliver a broad spectrum of legal services across corporate, financial, and commercial fields, in addition to virtually all other areas of Icelandic law. Over the years, we have built a reputation as trusted advisors to both domestic and international clients, guiding them through complex transactions, disputes, and strategic challenges.

We distinguish ourselves by proactively identifying opportunities and mitigating risks on behalf of our clients, ensuring they receive forward-thinking and pragmatic counsel. Whether a matter involves transactional support, regulatory compliance, or litigation strategy, our team combines extensive experience with a progressive mindset, enabling us to craft effective solutions across diverse sectors. From established corporations to visionary start-ups, LEX stands ready to help organizations succeed in a rapidly evolving business and regulatory environment.

EXCLUSIVE EXPERTISE

LEX is widely recognized for its leadership in Energy, Natural Resources, and Environmental Law. Our firm boasts unparalleled experience in securing permits for hydroelectric power stations—including dams—which often requires in-depth negotiations with landowners and sustained interaction with multiple governmental authorities. By deftly managing environmental and regulatory challenges, we help clients navigate these complex processes in a manner that both advances their projects and safeguards stakeholder interests.

We have also played a pivotal role in advising one of the world's most prominent carbon capture firms, demonstrating our commitment to pioneering sustainable energy solutions. For decades, our team has counselled power-intensive industries on negotiating power contracts, leveraging deep sector knowledge and negotiation acumen to achieve favourable, forward-looking agreements. Furthermore, LEX is at the forefront when it comes to advising clients on Environmental, Social, and Governance (ESG) issues, ensuring that organizations align with global best practices while adhering to the highest ethical and regulatory standards.

This combination of experience and forward-thinking leadership positions LEX as a trusted partner in critical energy and environmental initiatives. We remain dedicated to helping clients address today's challenges while preparing for the evolving demands of tomorrow's markets—and always doing so with a clear focus on sustainable growth, legal precision, and the overarching needs of stakeholders.

DESCRIPTION Established in 1991, SK&S is one of the leading law firms in Poland, serving both Polish and foreign businesses. The firm currently employs over 180 attorneys and provides the highest standard of legal services in all areas of business activity. SK&S' Energy Department specializes in energy law and energy infrastructure projects and provides legal advisory services to companies producing, transmitting and distributing as well as trading in electricity, gas and heat. Our team is involved in both renewable and conventional energy projects and transactions. The SK&S Energy team has 4 partners, 4 senior counsels and 10 associates.

EXCLUSIVE EXPERTISE For many years, SK&S and its attorneys individually have been recognized by international legal directories: Chambers & Partners, Legal 500, PLC Which Lawyer?, and in the rankings of law firms by the Polish dailies Rzeczpospolita and Dziennik Gazeta Prawna, and Forbes.

DESCRIPTION

Morais Leitão is a leading full-service law firm in Portugal. Through the network Moraes Leitão Legal Circle, we present a team of more than 250 lawyers, with offices in Portugal, Singapore, Angola (ALC Advogados), Mozambique (MDR Advogados) and Cape Verde (VPQ Advogados).

The Moraes Leitão Energy team – currently encompass 19 lawyers – was a true pioneer in the Portuguese market. Now with decades of accumulated experience in this area in both national and international projects and representing the main companies which operate in the energy market, the team covers all activities within the energy sector and is committed to providing high quality services, adequate implementation capacity and total dedication.

EXCLUSIVE EXPERTISE

We are well known for our work in the electricity and natural gas sectors in Portugal (in particular for rendering advice to large utilities, DSOs, TSOs and financial institutions). We are particularly active in the renewables sector, having advised most of the landmark projects in this thriving new sector.

DESCRIPTION NNDKP is a pioneer of business law in Romania, offering integrated legal and tax services. In the energy field, we are constantly called to act on landmark projects, such as the contemplated first Romanian deep offshore gas project, the privatization of the largest oil & gas producer in the SEE (€1.5 billion) or the privatization of 4 out of 5 privatised electricity distribution and supply companies.

EXCLUSIVE EXPERTISE Our strong team of professionals consisting of 2 partners and 8 lawyers has built an unrivalled energy and natural resources expertise, thanks to its contribution to myriads of industry specific matters. Our capabilities are enhanced by our extensive experience with the legislative process impacting this sector. We are ranked Band 1 (Chambers & Partners) and Tier 1 (Legal 500). Our team was named "Law Firm of the Year in Energy" at the Romanian Legal Awards Galas (2023, 2019, 2018) and received, at national level, the "Deal of the Year" award for 2022 at the CEE Deals of the Year Awards Gala organized by CEE Legal Matters. NNDKP advised ExxonMobil, one of the largest publicly traded international oil and gas companies, in selling to Romgaz its 50% participation in the Neptun Deep offshore block in the Black Sea.

Podgorica, Skopje and Tirana

DESCRIPTION

Karanovic & Partners is a regional legal practice in Southeast Europe with tradition spanning over 30 years and cooperating offices in Serbia, Slovenia, Croatia, Bosnia and Herzegovina, Montenegro, North Macedonia, and Albania. With more than 150 attorneys at law working together across the region, we take pride in our work, dedication and understanding of our clients' industries and needs. As a recognised market leader and award-winning firm, we are constantly ranked as a top tier firm by Chambers & Partners, Legal 500 and IFLR 1000. We focus on straightforward solutions and tailor-made advice. Lawyers cooperating with us are fully immersed in our clients' culture and industry to ensure that the work is delivered intelligently and reliably.

EXCLUSIVE EXPERTISE

We are privileged to have been at the forefront since the earliest days of the reforms of the energy sectors across Southeast Europe. Since then, we have been engaged on a wide range of projects in the electricity, renewables, and oil & gas sectors, and are especially proud of our experience in the construction of power plants, power purchase agreements, energy trading, renewable support schemes and energy financing. This, combined with a strong cross-border footprint, allowed us to gain sophisticated know how unparalleled in the region. Furthermore, the expertise of our energy team is recognized and praised among the clients, but also externally – we have won “Deal of the Year” Award by CEE Legal Matters on multiple occasions for our advisory in landmark energy deals in Serbia and the CEE.

DESCRIPTION

With eight members, our Energy & Natural Resources Practice Group is arguably the largest in Slovakia. For several years, we have been ranked by the Chambers Europe and Legal 500 directories as a Band 1 energy law firm. Roman Prekop and Adrian Barger are recognized as leading individuals in Brand 1 and Brand 2, respectively. We cover all aspects of energy and natural resources work including Electricity, Gas, Renewables, Heat, Water, and Mining.

EXCLUSIVE EXPERTISE

In the energy field, we are particularly strong in (I) a broad range of Slovak regulatory matters (gas and electricity (including renewables and nuclear)), (II) contentious regulatory, competition and construction (administrative, court and arbitration proceedings), (III) Slovak and regional transactional work, and (IV) project-related ICC arbitrations.

DESCRIPTION Brodies is a UK top 50 and leading Scottish law firm. Headquartered in Scotland, it is the largest firm in its jurisdiction measured by income, directory rankings and lawyer numbers, and operates across the UK and beyond. Our team of 300 lawyers, many of whom are dual qualified in Scots and English Law, work collaboratively to deliver expert knowledge and new legal possibilities that are uniquely suited to each of our clients what we call Enlightened Thinking.

Taking a cross-practice approach, our energy team work closely with colleagues specialising in corporate, regulatory, shipping, health and safety, competition law, IP/IT and employment, to offer our clients a full-service offering. Having serviced clients in the Middle East from the UK for many years, the firm opened a new Abu Dhabi base in 2023 that allows Brodies Middle East LLP to further support these, and potential new, clients at a local level.

EXCLUSIVE EXPERTISE Brodies energy & infrastructure team compasses a number of specialist teams including renewables, oil & gas, infrastructure and construction & engineering. Our extensive industry experience has earned our team a formidable reputation in the sector where we are top ranked by both Chambers UK and Legal 500 UK 2025 in each of these areas. Our growing presence in the Middle East market has been recognised with a 'spotlight' ranking for oil & gas by Chambers Global, Middle East 2025.

DESCRIPTION

Hammar skiöld's Energy & Infrastructure team is recognised for advising on high-profile mandates across the energy sector. The team provides transactional, regulatory, and advisory services to clients operating in renewable energy, traditional energy sources, and energy tech.

Hammar skiöld has extensive experience advising on major energy projects, including onshore wind farms, utility-scale solar parks, and energy storage solutions. We have also played a key role in supporting the development and commercialisation of battery cell technology for use in heavy commercial vehicles. The team has significant expertise in M&A, project financing, energy trading, and regulatory matters such as network concessions, tariffs, and EU regulations on renewable fuels.

Our clients include leading Swedish and international companies across the energy sector, ranging from developers and investors to financial institutions and industrial players.

EXCLUSIVE EXPERTISE

Our practice is regularly recognised as one of the leading Swedish energy law practices by ranking institutes such as Legal 500. We have specialist expertise in wind energy (both onshore and offshore), solar energy, biogas, and regulatory aspects of energy infrastructure. Our team also has extensive experience in handling complex energy-related disputes, including litigation and arbitration concerning nuclear power and energy distribution.

Additionally, we advise on the legal aspects of emerging energy technologies, including battery storage, hydrogen, and carbon capture.

DESCRIPTION

With multiple offices in Switzerland and an office in Brussels, valfor is one of Switzerland's largest leading full-service business law firms. Combining the knowledge and experience of more than 80 lawyers, valfor is a one-stop shop for clients with diverse legal needs. Under the maxim "value beyond legal advice", valfor stands for continuous commitment and the shared aspiration to always deliver real added value to its clients. With a strong interdisciplinary and international focus in all areas of commercial law, we have the breadth of experience and diversity of talent to operate at the forefront of all our clients' industries and markets, wherever they may be. Our extensive network of trusted law firms and consultants worldwide enables us to provide our clients with best-in-class integrated solutions and the unparalleled services they seek in today's increasingly complex business and legal environment. Our strength is based on our extensive knowledge, professional experience, deep understanding of local laws and customs and our unyielding commitment to excellence.

EXCLUSIVE EXPERTISE

Valfor is a recognized market leader in the energy and natural resources sector. With its sector-specific expertise, the valfor team covers the full range of legal services relating to electricity, oil and gas, mining, water and renewables, including transactional work and regulatory advice. Within the scope of our advisory activity, we provide cutting-edge industry-specific advice across the full spectrum of relevant disciplines, including energy regulation, regulatory management, regulatory reform and market design, energy supply, storage and trading (incl. emissions trading), grid access and use, competition and environmental issues, greenfield developments, M&A transactions, and the financing of equity assets or portfolios. Government authorities, municipalities, utility companies, energy groups, international trading companies, industrial corporations, consumers and leading financial institutions count on our advice when it comes to keeping pace with market and regulatory developments or entering new markets, as well as in representing them in civil and administrative proceedings before Swiss courts and regulatory authorities. Clients benefit from our multidisciplinary practice. Our energy and utilities lawyers work alongside corporate M&A, tax, banking and finance, capital markets, competition, real estate & construction, as well as litigation and arbitration experts.

DESCRIPTION Our energy team, with over 100 sector expert lawyers, is globally recognised as one of the world’s leading energy practices. We provide comprehensive advice across the full spectrum of services for our clients, including mergers and acquisitions, joint ventures, all forms of financing, competition and regulatory, tax, dispute resolution, project development, trading, construction, operation and maintenance contracts, decommissioning, real estate, environment, planning consents, as well as general commercial and corporate advice.

EXCLUSIVE EXPERTISE Our team regularly advises on high-profile, innovative, complex, contentious, and non-contentious matters, across all the major energy sectors. These include transactions related to the nuclear, onshore and offshore wind, solar PV, biomass, energy from waste, hydropower, battery storage, nuclear, hydrogen, carbon capture and storage, and conventional energy sectors. Much of our work has an international element, and our experience on multi-jurisdictional matters means that we are regularly asked to lead on international matters for clients across the world. We are proud to be ranked as Tier 1 by Legal 500, and have been shortlisted for The Lawyer Awards, for the fifth consecutive year, in 2024.
