ELG Academy 2026 in Lisbon

A huge thank you to the outstanding team at Morais Leitão for hosting this year's Academy and for their exceptional organisation, warm hospitality, and dedication in making the event such a memorable success.

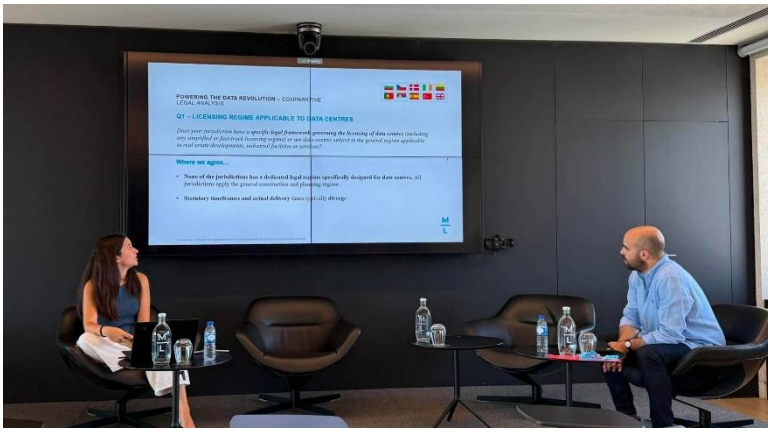

From 18–20 June, talented young lawyers from across the Energy Law Group gathered in Lisbon to learn, exchange experiences, and strengthen international connections.

This year's Academy focused on "Powering the Data Revolution", exploring one of the most dynamic and rapidly evolving areas in the energy sector. Participants engaged in insightful discussions on: recent energy transactions and key market developments across jurisdictions; comparative legal analysis related to the data revolution and energy transition; cross-border challenges and opportunities arising from increasing digitalisation and data centre developments.

Beyond the excellent professional discussions, the Academy once again demonstrated the true value of the ELG network. Bringing together young lawyers from different jurisdictions creates a unique environment for sharing knowledge, exchanging perspectives, and building meaningful professional relationships and lasting friendships.

Thank you to everyone who participated and made this edition such a success. We are already looking forward to continuing this wonderful tradition next year!

URÍA
MENÉNDEZ

valfor advised Templus on the acquisition of nine data centers from AtlasEdge

valfor, working with **Uría Menéndez**, advised **Templus Centros de Datos, S.L.** on the Swiss law aspects of its acquisition of nine European data centers located in Amsterdam, Barcelona, Copenhagen, Leeds, London, Madrid, Milan, Paris and Zurich from AtlasEdge, owned by Liberty Global and DigitalBridge.

Templus is a pan-European platform of local, hyper-connected data centers, established by global alternative asset manager ICG. The acquisition represents a significant step in the international expansion of Templus' activities in Europe.

Hengeler Mueller advises RWE on increase of stake in Amprion

Hengeler Mueller advises Skyborn Renewables on strategic partnership with Stadtwerke München in offshore wind farm project Gennaker

Hengeler Mueller advises Siltronic on capital increase with gross proceeds of €273 million

Hannes Snellman acted as Finnish counsel to Energy Fuels Inc. in the acquisition of Vacuumschmelze GmbH & Co. KG and its related group companies (VAC) from Ara Partners. Energy Fuels is a leading critical mineral company listed on the NYSE, focusing on the production of uranium, rare earth oxides, and medical isotopes.
